This towing hitch is designed to assembly in following car: **VOLKSWAGEN TIGUAN**, produced since 2007, catalogue number **K51** and is prepared to tow trailers max total weight **2000 kg** and max vertical mass **100 kg**.

From manufacturer

Thank you for buying our product. Their reliability has been confirmed in many tests. Reliability of towing hitch depends also on correct assembly and right operation. For this reasons we kindly ask to read carefully this instruction and apply to hints.

The towing hitch should be install in points described by a car producer.

The instruction of the assembly

- 1. Disassemble bumper and it's metal reinforcement. Reassemble original bolts fastening reinforcement. Reinforcement will not reassembled.
- 2. Inside chassis members slip side brackets (pos. 4 and 5) in this way so holes of brackets agree with original holes in chassis members. and fox loosely using bolts M10x35mm (pos. 10) as shown in the drawing.
- 3. Between installed side brackets apply main bar of the towbar (pos. 1) ad fix using bolts M12x40mm (pos. 8) and M12x35mm (pos. 9) as shown in the drawing.
- 4. Fix tow-ball (pos. 2) with socket plate (pos. 3) using bolts M12x75mm (pos. 6) and M12x70mm (pos. 7) from accessories.
- 5. Tighten all bolts according to the torque shown in the table.
- 6. Reassemble bumper after cut off it's fragment according to supplied template.
- 7. Connect electric wires of 7-poles socket according to the instruction of the car. (Recommend to make at authorized service station).
- 8. Complete paint layer damaged during installation.

Torque settings for nuts and bolts (8,8):

M 8 - 25 Nm **M 10** - 55 Nm **M 12** - 85 Nm **M 14** - 135 Nm

NOTE

After install the towing hitch you should get adequate note in registration book (at authorised service station). The car should be equipped with:

- Indicators
- Tow mirrors

After 1000km of exploitation check all bolts and nuts. The ball of towing hitch must be always kept clear and conserve with a grease.

Towing hitch (without electrical set)

Class: **A50-X** Cat. no. **K51**

Designed for:

 $Manufacturer: {\bf VOLKSWAGEN}$

Model: **TIGUAN** produced since 2007

Technical data: **D**-value: **12,0 kN**

maximum trailer weight: 2000 kg maximum vertical cup mass: 100 kg

Approval number according to Directive 94/20/EC: e20*94/20*0581*00

69-38-36
Foreword

This towing hitch is designed according to rules of safety traffic regulations. The towing hitch is a safety component and can be install only by qualified personnel. Any alteration or conversion of the towing hitch is prohibited and would lead to cancellation of design certification. Remove insulating compound and underseal from vehicle (if present) in the area of the matting surfaces of the towing hitch. The vehicle manufacturer's specifications regarding trailer mass and max. vertical cup mass are decisive for driving whereat values for the towing hitch cannot be exceeded.

D-value formula:

Max trailer weight [kg] x Max vehicle weight [kg]

Max trailer weight [kg] + Max vehicle weight [kg]

X 9,81 = D [kN]
